DETAILED ACTION

Election/Restrictions

- 1. This application contains claims directed to the following patentably distinct species:
 - Species I drawn to character recognition as depicted figure 1 and defined by claims 1-7.
 - Species II drawn to voice recognition as depicted by figure 17 defined by claim 8.

The species are distinct because they are directed to related inventions. That is character recognition is related by the disclosure as being used together in information recognition apparatus. The related inventions are distinct if the inventions as claimed do not overlap in scope, i.e., are mutually exclusive; the inventions are claimed are not obvious variants; and the inventions as claimed are either not capable of use together or can have material different design, mode of operation, function or effect. See MPEP § 806.05 (j). In the instant case, species I-II as defined by claims 1-9 do not overlap in scope, they are mutually exclusive, and have materially different designs modes of operation (i.e. character recognition and voice recognition).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, there are no generic.

Application/Control Number: 10/658,320

Art Unit: 2624

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP 809.02(a).

Applicant is reminded that upon the cancellation of claims to a non-elected 2. invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory M. Desire whose telephone number is (571) 272-7449. The examiner can normally be reached on M-F (6:30-3:00).
